

## Charger Case

### TS-W180Q

### Feature

- \* All USB ports of the charger can be used simultaneously for batch charging of devices.
- \* Use a USB cable, connect one end to the charger and the other end to the conference unit; support 18W fast charging.
- \* According to the withstand current of the device, the charger will automatically match the appropriate current for charging; with over-current protection function, it will ensure the safety of the charged unit.
- \* With Auto circuit protection, all USB ports supports short-circuit protection and self-recovery functions.

### Specification

Model	TS-W180Q
Input voltage	100-240V AC 50/60Hz
Charging interface (USB)	10pcs/200W
Charging voltage	5V/9V
Charging current	2A MAX
Color	Black
Dimension (L×W×H)	245×140×65mm
Weight	1.68kg
