

### Feature:

- \* This wall-mounted antenna, in the active state, has a 180° receiving range, which is wider than that of the directional antenna.
- \* With wide receiving frequency band, it can receive the frequency of 450-950MHZ.
- \* With anti-corrosion, anti-ultraviolet, shock-proof and light-weight characteristics, it can work stably for a long time in different environments.
- \* Easy to install.

### Specification:

Model	T-526S
RF frequency range	450-950MHz
Power supply	BNC, 8-12V DC
Current	0.04A
<a href="#">Standing-wave ratio (SWR)</a>	≤2.0
Input impedance	50Ω
Amplifier noise floor	<3.6dB
Gain	18db (typical)
Polarization mode	Vertical
Front-to-rear ratio	≥25dB
Connector type	BNC
Directivity	180°
Product size	178*207.3*44.5mm
Package size	425*365*75mm
Net weight	1.14kg
Gross weight	1.43kg
