

## Feature

- \* The courtyard spotlight speaker is a new generation of all-weather outdoor landscape satellite speakers. It is a small box with a dark brown-black appearance and looks like a garden floor lamp. It can be easily hidden among flowers, plants and trees, and blends seamlessly with the surrounding environment.
- \* The multi-sealed shell also ensures that the speaker can withstand the test of various climates such as cold and hot weather, wind and rain, and is not easy to corrode or peel, making it safe and reliable.
- \* The sound is highly directional and does not disturb people. Users can aim the speakers in any direction and angle to achieve ideal placement and positioning. By minimizing the spread of sound energy outside the target area, it focuses a wide sound field in the main listening area. It not only reduces the interference to neighbors, but also enables you and your relatives and friends to hear the best sound effects.

## Application

Mainly used in courtyards, villas and other occasions.

## Specification

Impedance	8Ω
Frequency response	40Hz~20kHz
Rated power	40W
Peak power	160W
Sensitivity	90dB±3dB
Maximum sound pressure level (dB)	106dB
Bass	6.5-inch bass × 1
Dimensions (H×W×D)	477×206×339mm
Weight	3.5kg
