

Bubble Effect Machine

TL-SL641

Description:

The bubble machine has the characteristics of small size, convenient movement, high bubble rate, and wireless remote control. Adopting the double-wheel high-speed bubble output, and turning the blower up, the machine has good stability, more bubbles, even rate, large coverage, and no noise. It is widely used in various performances and celebrations.

Feature:

- * Blowing height: 10 meters.
- * Duration: 100 minutes.
- * Coverage: 200 square meters.

Specifications:

Model	TL-SL641
Input voltage	AC 110-240V 50Hz, 100W
Fuse	10A/250V
Control mode	Wireless remote control (30 meters), manual control, DMX512 control
Bubble liquid capacity	2.5L
Channel	2 channels
Protection level	IP20
Product size (L×W×H)	482×350×348mm
Package size (L×W×H)	555×420×415mm
