

Straight Box

TL-SL752

Feature:

- * Adopt a 225A main switch, and a high breaking air switch with double protection of overload and short circuit.
- * 3-phase independent voltage, current and monitoring; 3-phase A.B.C indicators.
- * Three output modes: 40A bakelite plug, 16A waterproof plug, 19-pin plug.
- * Dimension: International standard 9U.

Specifications:

Model	TL-SL752
Input voltage	Three-phase five-wire system AC380V±10%, frequency 50Hz±5%
Rated input current	400A Rhino plug input, maximum 24 channels × 4kW, suitable for any load.
Fixture size (L×W×H)	590*670*610mm (flight case)
Net weight	48.3kg
