# Sensor
## TV-81WSG

## Description:

High precision temperature and humidity sensor, beautiful and compact shape, standard guide structure design, simple connection, easy to install. The imported high-precision probe ensures the excellent measuring performance of the product. Super stability and anti-interference ability, strong product protection performance, level 1 lightning protection. RS485 interface, multiple modules can be connected to the bus network, real-time monitoring of multiple field environment.

## Features:

* Connect the multi-function card and choose one of the four expansion ports.
* Standard guide rail structure design, easy to install.
* Use outdoors for three protection.
* Standard 5m line for extension.

## Specifications:

| Model | TV-81WSG |
|---|---|
| Rated voltage | DC5V~12 V |
| Measuring range | temperature: -40°C~120°C, humidity: 0~100% RH |
| Accuracy of measurement | temperature: ±0.3°C resolution: 0.1°C; humidity: ±3% RH resolution: 0.1 RH |
