

Column Speaker

T-902

Material: Iron

Description:

- * High power outdoor waterproof sound column, all metal structure, IP66, suitable for large square, playground and other places.
- * The shell is made of cold-rolled plate material, and the surface is sprayed with powder to improve the service life and prevent oxidation;
- * The mesh cover is made of aluminum, and the surface is sprayed with powder to increase the strength of the mesh cover, and a layer of waterproof cloth is added to prevent water and dust and improve the service life;
- * With two 6.5-inch full-range speaker units and one 3-inch tweeter, the low frequency is full, the treble is clear, the human voice is enhanced, the carrying power is large, and the penetrating power is strong;
- * Built-in high-performance 100V audio transformer, which can reduce the loss caused by impedance in the circuit, multiple power options, and flexible wiring methods;
- * Standard bracket, easy to install;

Specifications:

Model	T-902
Power taps (100V)	60W
Power taps (70V)	30W
SPL	91dB
Impedance	Black: Com White: 160Ω
Frequency response	110-15KHz
IP rate	IP66
Dimensions	240×190×615mm
Speaker driver	6.5"×2+3"×1
Weight	6.7kg
