

Description:

It is widely used in various small and medium-sized meeting rooms, banquet halls, hotels, commercial buildings, schools, entertainment and leisure places.

Feature:

- * The housing is made of polystyrene material, which is lightweight. And it is easy to install in various application scenarios.
- * The front panel adopts iron mesh decorative panel parts, which is beautiful and elegant.
- * Multi-angle adjustment of the mounting bracket, easy to adapt to various application scenarios.
- * Adopt 1 5.25-inch mid-woofer unit and 1 25MM silk film tweeter unit.
- * 5 fixed constant voltage volume adjustment switch.
- * Built-in high-quality linear audio power transformer.

Specifications:

Model	T-865CF
Constant Voltage Power@100V	3W,6W,12.5W,25W,50W
Constant Voltage Power@70V	1.5W,3W,6W,12.5W,25W
Peak Power	200W
Max SPL (nominal/peak)	101dB/107dB
Frequency Response	85Hz-20kHz
Sensitivity	84dB +/-3dB
Speaker Unit	5.25 inch mid-woofer+25MM tweeter
Dimension	376(W)x202(D)x184(H)mm
Weight	4.1Kg
