

# Straight Box

## TL-SL752

### Feature:

- \* Adopt a 225A main switch, and a high breaking air switch with double protection of overload and short circuit.
- \* 3-phase independent voltage, current and monitoring; 3-phase A.B.C indicators.
- \* Three output modes: 32A bakelite plug, 16A waterproof plug, 19-pin plug.
- \* Input rated current: 400A rhino plug input, maximum 24 channels × 4kW, optional for any load.
- \* Built-in single-item controllable circuit, can use DMX512 console to control each item on/off individually.

### Specifications:

Input voltage	Three-phase five-wire system AC380V±10%, frequency 50Hz±5%
Rated input current	400A Rhino plug input, maximum 24 channels × 4kW, suitable for any load
Fixture size (L×W×H)	700×620×660mm (flight case)
Net weight	54.5kg
