

Feature

- * Working mode: manual ON/OFF,automatic switch
- * Protection function: output leakage protection
- * Programmable number: 16
- * Time control function: 1 time controller, the timing control range is 1min-168h, with automatic calibration function

Specification

Input voltage	AC380V, level -3P+N+E
Wiring method	AC380V three-phase five-wire system input, AC220V output directly connected to the output terminal of the air switch
Power output	AC220V , level -L+N+E
Output power	9*4KW
Output channel	9 channel AC220V
Shell color	White
Installation method	Wall-mounted
Protection level	Ip55
Product size	530*628.5*210.5mm (W*H*D) ;
Package size	700*600*275mm (W*H*D)
Net weight	19.5KG
Gross weight	21.5KG
