

## Feature:

- \* Color wheel: 5 color gels + white light, two-way stepless rotation, magnet positioning, color index, half-color and other functions.
  \* Gobo wheel: 1 rotatable gobo wheel, 4 gobos; support pattern positioning, rotation, dithering, etc.
  \* Dimming: 0-100% linear adjustment.

- \* Strobe: electronic strobe, 0-25 times/sec (built-in pulse stroboscopic effect). \* DMX512 port program update, convenient and fast software upgrade through DMX data cable \* Over-temperature protection function: built-in NTC temperature control function. When the LED is overheated, the output power will be intelligently reduced. \* LCD blue screen display, including the lamp usage time, software version number, etc. are displayed.

## **Specifications:**

| Model                | TL-LT201A                                                                                                                |
|----------------------|--------------------------------------------------------------------------------------------------------------------------|
| Input voltage        | AC 110-240V 50/60Hz, 170W                                                                                                |
| Light source         | A 150W White Light LED OSRAM chip                                                                                        |
| Average lifespan     | 50000H                                                                                                                   |
| Color temperature    | 7500K                                                                                                                    |
| Light spot angle     | 45° (15°, 30°, 60°, 75° optional)                                                                                        |
| Control mode         | Comply with the international standard DMX512 signal control protocol, 3-core (5-core optional) DMX512 signal interface; |
|                      | master-slave synchronous control mode, support RDM protocol and program online update function                           |
| Operation mode       | DMX mode, user program mode, built-in program mode                                                                       |
| Channel              | 7/9 channels                                                                                                             |
| Fixture material     | High-strength die-cast aluminum alloy + copper tube radiator + a waterproof fan to assist heat dissipation               |
| Protection class     | IP67                                                                                                                     |
| Working temperature  | -20°C~45°C                                                                                                               |
| Fixture size (L×W×H) | 230×180×367mm                                                                                                            |
| Package size (L×W×H) | 270×250×455mm                                                                                                            |
| Gross weight         | 9.3kg                                                                                                                    |
| Net weight           | 8.3kg                                                                                                                    |
