

### Feature

- \* 1×12G-SDI LOOP, 12G-SDI input loop output;
- \* 12G-SDI interface, compatible with 6G-SDI, 3G-SDI, HD-SDI and SD-SDI standards;
- \* Single-channel maximum video input of 4096×2160@60Hz;
- \* The settings of input resolution and bit depth are not supported.

### Specification

|                    |                        |
|--------------------|------------------------|
| Model              | TV-8804SR-4K           |
| Interface type     | 12G-SDI                |
| Interface quantity | 12G-SDI×2              |
| Input signal       | SDI                    |
| Power consumption  | 12W                    |
| Board type         | Plug-in card           |
| Dimension          | 193mm*21.15mm*247.12mm |
| Weight             | 0.55Kg                 |
