

Ceiling Speaker

T-200H

Material: Plastic

Description

Applicable to supermarkets, shopping malls, subways, schools and other places

Features

- *Waterproof design, the overall style is simple, beautiful and generous, and more attention is paid to product functional design.
- *High-quality plastic material, excellent mechanical properties, good impact resistance, superior material stability and durability.
- *It uses a 5-inch full-range speaker unit, with excellent overall continuity and natural fidelity of the sound, beautiful timbre, good balance of the sound range, sufficient high-frequency details without being harsh, and low-frequency restoration that is loose enough without being ambiguous. The natural and real mid-frequency performance is its biggest advantage, allowing you to enjoy the extraordinary experience of both music and vocals, and experience the clear reproduction of vocals and the smooth response of background music.
- *Built-in high-performance audio transformer can reduce the loss caused by impedance in the circuit, with multiple power options and flexible wiring methods.
- *Use high-quality wires, use at full load for a long time, prevent heat generation, have good conductivity, and are safe to use.

Ceiling Speaker

T-200H

Specification

Rated power (100V)	1.5W, 3W, 6W
Rated power (70V)	0.75W, 1.5W, 3W
Frequency response (-10dB)	130Hz-14kHz
Sensitivity	91dB±3dB
Impedance	Blue: COM ; Red: 6.7KΩ ; Green: 3.3KΩ ; Yellow: 1.7KΩ
Speaker unit	5"×1
Protection level	Ip66
Size	205×205mm
Weight	1.1kg
