

Description

This product is a 4MP network HD camera, integrated with a high-performance low-light CMOS sensor, supporting H.265/H.264 encoding, and providing high-definition video surveillance. It features white light supplement, with night-time illumination reaching up to 25 meters. The camera supports human/vehicle detection, line crossing detection, area intrusion detection, digital wide dynamic range, privacy masking, and other functions, ensuring clear imaging in complex environments. It is widely used in security monitoring for indoor and outdoor environments such as residential areas, factories, schools, and shopping malls, offering an all-weather intelligent security solution.

Features

*Adopting 1/1.8" low-light CMOS sensor, the image is clear and delicate.

- *4MP; maximum 2560×1440@30fps.
- *Automatic electronic shutter, adaptable to different monitoring environments.
- *Brightness, contrast, saturation and sharpness are adjustable.
- *DWDR, 2D/3D NR, AWB/Manual White Balance.
- *Supports flip/mirror.
- *Built-in microphone and speaker.
- *H.265/ H.264 video encoding.
- *Supports pedestrian/vehicle type detection, line crossing detection, and area intrusion detection.
- *Supports information overlay (such as title, time, date information, etc.).
- *Supports privacy masking, up to 4 areas.
- *Supports Onvif and GB28181-2016 protocols.
- *Supports POE power supply; IP66 protection level.
- *Alarm I/O: 1-channel input, 1-channel output.
