- *Safety devices: independent power supply indication, anti-top-up circuit breaker protection, phase disorder protection, overload protection;
- *Standard accessories: 4 sets of expansion screws

Specification

Input voltage	AC380V, 50Hz
Rated power	X channels × 4000W (depending on the project)
Input current	≥60A
Product size (L×W×H)	800×600× 210mm (depending on the project)
Packing size (L×W×H)	910×710×330mm(carton) (depending on the project)
Gross weight of packaging	About 44kg (depending on the project)
Product net weight	About 40kg (depending on the project)
